EDUCATION

SKCET – B.Tech (IT)

CGPA : 8.09 — 12th : 86.16%

JEE : 83 % — 10th : 90.4%

TRAINING (@SKCET)

- DSA Training — Linked Lists, Trees, Graphs, Stacks, Queues, String Manipulation, Backtracking, Dynamic Programming, DFS, BFS
- Spring Boot Training — RESTful APIs, Controllers, Services, Repositories, and database integration.
- React Training — Component-based UI development, state management, and props

PROJECT

1. Chess Website

Java | Spring Boot 3.4 | React 19 | WebSockets | STOMP | JavaScript

- Architected a real-time multiplayer chess platform using Spring Boot, React, and STOMP over WebSockets, featuring concurrent matchmaking, multiple time controls (1–10 minutes), and server-side move validation.
- Engineered an AI chess engine using Minimax, Alpha-Beta Pruning, Piece-Square Tables (PST), and Move Ordering, featuring four AI difficulty levels (800–2100 ELO) and real-time win probability evaluation.

2. Last-Mile Delivery Platform

Java | Spring Boot | MySQL | REST API | HTML | CSS | JavaScript

- Developed a full-stack delivery platform connecting customers, vendors, delivery partners, and administrators with role-based access control and RESTful backend services using Spring Boot.
- Implemented order management, delivery assignment, status tracking, and relational database persistence using MySQL, JPA, and Hibernate.

3. Handwriting Character Recognition System

Python | Machine Learning | EMNIST | PIL | Tkinter | CSV

- Built an interactive handwriting recognition application supporting digits (0–9) and alphabets (A–Z, a–z), incorporating image preprocessing and ML-based character classification.
- Implemented a feedback-driven training pipeline to collect user drawings, correct misclassified predictions, generate labeled datasets, and improve future model training.

4. Library Management System

Java | MySQL

- Developed a Java-based library management application to manage book inventories, user records, and essential library operations.
- Integrated MySQL database persistence to perform CRUD operations and maintain structured library records.

ACHIEVEMENTS

- Solved **500+ LeetCode** problems, demonstrating strong proficiency in Data Structures and Algorithms.
- Secured First Place in Clue Chase, demonstrating problem-solving, teamwork, and logical thinking.

CERTIFICATE

- Java – NPTEL
- Database and SQL
- Object-Oriented Analysis and Design
- AWS Cloud Practitioner Essentials
- Advanced Commands in Linux
- C++ Training – IIT Bombay
- Networking Basics
- The Joy of Computing using Python

PROFESSIONAL SUMMARY

Enthusiastic B.Tech Information Technology student at Sri Krishna College of Engineering and Technology with a strong foundation in Java, C++, MySQL, Data Structures and Algorithms, and backend development. Hands-on experience building RESTful applications with Spring Boot and developing ML-based handwriting recognition. Strong problem-solving skills demonstrated through 500+ LeetCode problems and practical software projects.

LANGUAGE

- English – Fluent
- Tamil – Mother Tongue

Hobby

- Chess
- Drawing
- Listing Music
